## BODGER'S WILT RESISTANT ASTERS

Our "Bodger" grown wilt-resistant Aster seed is of high quality, true to type, and as wilt-resistant as it can be made. Wilt-Resistant varieties are resistant only to wilt, in general they are more vigorous, and less susceptible to other infections. A chief enemy of Asters is the yellow disease, which is transmitted by leaf hoppers. Occasional spraying or dusting with a lasting D.D.T. containing insecticide should protect your Asters from infection. (Protexall D.D.T. 5% dust or D.D.T. 50% wettable dust.)

Zinnia "Giant Dahlia Flowered"

## ZINNIAS

One of the most popular and easily grown annuals, Zinnias grow in most any soil, but do best in a sunny location and thrive on heat.

Most of our seed is grown by "Bodger's in California" introducers of the Dahlia Flowered and California Giant or Mammoth types, therefore, insuring you of the best in Zinnias your money can buy.

From "Burpee's" another pioneer in the Zinnia field come the newer varieties - Burpee Hybrids - Super Giants - Floradale Beauty - etc.

Zinnias require a warm temperature, 65° minimum-better, 70° — to germinate satisfactorily.
